

17.09.12
Monday

Arriving day

18:00 – 21:00 Registration & Welcome Party

18.09.2012
Tuesday

9:00 – 9:20

Opening of conference

(Prof. R.Dagkesamanskii, Prof. V.Malofeev)

Chair Valery Malofeev

9:20 – 9:40

Session “ISM & Masers”

Olga Bayandina

The similarities and differences in the formation of masers on methanol and OH according to data from radio astronomy observations

9:40 – 10:00

Marcelo L. Leal-Ferreira

Shaping Planetary Nebulae: Evidences of Magnetic Fields Around Evolved Stars

10:00 – 10:20

Ivan Litovchenko

Interferometric observations of the source W3(OH) in the main lines of OH in preparation and holding the early science program of the space mission RadioAstron.

10:20 – 10:40

Guillermo Manjarrez

CCS observations in L1448

10:30 – 11:00 Coffee-break

11:00 – 11:20

Jackie Villadsen

Anomalous Emission - Zooming In on Spinning Dust

11:20 – 11:40

Samantha Walker-Smith

Structure and Kinematics of NGC 2068

11:40 – 12:20

Invited speaker Prof. H. van der Laan

Radio Astronomy in the 1960s and the Birth of YERAC

12:30 – 14:30 Lunch

15:00 – 15:10 Welcoming remarks by academician N. Kardashev

Chair Nikolay Kardashev

15:10 – 15:45

Session “Instrumentation & Methods”

Invited speaker Dr. Yu. Kovalev

International Space Mission RadioAstron

15:45 – 16:20

Invited speaker Prof. H. van der Laan

*ESO 50 Years and Radio Astronomy’s Future
ALMA & SKA*

16:20 – 16:50 Coffee-break

Chair Harry van der Laan

16:50 – 17:10

Dmitry Duev

Ultra Near-Field VLBI Experiments

17:10 – 17:30	<u>Tatiana Bocanegra Bahamon</u> <i>Space Applications of Planetary Radio Interferometry and Doppler Experiment (PRIDE)</i>
17:30 – 17:50	<u>Sergey Korneenko</u> <i>Research of characteristics of 100-m radio telescope at the Max Planck Institute for Radio Astronomy</i>
17:50 – 18:10	<u>Dmitry Ladeyshchikov</u> <i>New double-channel radiometer for RT-22 radio telescope</i>
18:10 – 18:30	<u>Lucas Lindroos</u> <i>Stacking of Interferometric data, a look at radio emission from distant galaxies</i>

		<u>Chair Svetlana Glubokova</u>
19.09.2012 Wednesday		
	Session “Pulsars”	
9:00 – 9:40	Invited speaker Prof. I.Malov	
9:40 – 10:00	<u>Andrey Kazantsev</u> <i>Monitoring and Search for Giant Pulses with LPA radio telescope at 111 MHz frequency</i>	
10:00 – 10:20	<u>Alina Yablokova</u> <i>A search for radio nebulae around pulsars PSR J0358+5413, PSR J1809-1917 and PSR B1800-21</i>	
10:30 – 11:00	Coffee-break	
		<u>Chair Igor Malov</u>
11:00 – 11:20	<u>Elena Nikitina</u> <i>Distribution of areas of radiation generation at different frequencies in pulsar magnetospheres</i>	
11:20 – 11:40	<u>Dariya Teplykh</u> <i>Radio Emission of Geminga</i>	
	Session “Extragalactic & Cosmology”	
11:40 – 12:00	<u>Fiona Healy</u> <i>Multi-epoch 18-22cm VLBA Observations of Several AGNs</i>	
12:00 – 12:20	<u>Colm Coughlan</u> <i>MEM and CLEAN imaging of 18-22 cm VLBA polarization observations of compact active galactic nuclei</i>	
12:30 – 14:30	Lunch	
15:00 – 18:00	Excursion to Serpukhov city and surroundings	
		<u>Chair Evgeniya Kravchenko</u>
20.09.2012 Thursday		
9:00 – 9:40	Invited speaker Prof. I.Chashey	
	<i>Radio astronomical study of the turbulence solar wind</i>	
9:40 – 10:00	<u>Christian Fromm</u> <i>Spectral Evolution in Blazars</i>	
10:00 – 10:20	<u>Maciej Ceglowski</u> <i>A survey of Compact Complex Morphology Radio (CCMR) sources</i>	
10:20 – 10:40	<u>Sadie Jones</u> <i>Radio/X-ray variability and structure investigation of NGC 4051</i>	
10:40 – 11:00	Coffee-break	

11:00 – 11:20	<u>Aleksandar Shulevski</u> <i>Tracing the Life - Cycles of AGN using LOFAR</i>
11:20 – 11:40	<u>Peter Sims</u> <i>Foregrounds to the Epoch of Reionization</i>
11:20 – 11:40	Timur Mukakharov <i>Simultaneous spectra and radio properties of the BL Lacertae objects</i>
12:00 – 12:20	Konstantinos Kolokythas <i>Radio properties of nearby galaxy groups</i>
12:30 – 14:10	Lunch
14:10	Trip to PRAO
At PRAO	
15:00 – 15:20	<u>Prof. Rustam Dagkesamanskii</u> <i>Pushchino Radio Astronomy Observatory</i>
15:20 – 16:20-	Excursion to the telescopes
16:20 – 16:50	Coffee-break
	<i><u>Chair Daria Teplykh</u></i>
	Session “Stars & Star Formation”
16:50 – 17:10	<u>Anastasiya Boiko</u> <i>Search of the flare star radio emission in the frequency range of 16.5 – 33 MHz</i>
17:10 – 17:30	<u>Svetlana Glubokova</u> <i>Estimation of plasma turbulence parameters by observations of radio-source interplanetary scintillations</i>
17:30 – 17:50	<u>Katharina Immer</u> <i>The massive star forming complex W33 - Closer than expected?</i>
17:50 – 18:10	<u>Evgeny Mikhailov</u> <i>Star formation and models of magnetic fields in spiral galaxies</i>
18:10 – 18:30	Session “Extragalactic & Cosmology”
	<u>Katinka Gereb</u> <i>The global HI properties of galaxies up to z~0.1</i>
19:00 – 22:00	Conference Dinner at PRAO

21.09.2012			<i><u>Chair Andrey Kazantsev</u></i>
Friday			
	9:00 – 9:20	<u>Kunal Mooley</u> <i>A Sensitive Search for Variables and Transients in the Extended Chandra Deep Field South</i>	
	9:20 – 09:40	<u>Imogen Whittam</u> <i>The faint source population at 15.7 GHz</i>	
	9:40 – 10:00	<u>Alexander Butenko</u> <i>Search of giant radio galaxies on the declinations from 3.5 to 12.5 degrees</i>	
	10:00 – 10:20	<u>Anatoliy Glyantsev</u> <i>The refractive and diffractive scintillation of the source B0531+194</i>	
	10:20 – 11:00	Coffee-break	

Departure
(Transfer to Moscow and airports)
